INDEPENDENT AUDITORS' REVIEW REPORT

JMC Electronics Co., Ltd.

Introduction

We have reviewed the accompanying financial statements of JMC Electronics Co., Ltd. (the "Corporation"), which comprise the balance sheets as of September 30, 2025 and 2024, and the statements of comprehensive income for the three months ended September 30, 2025 and 2024, and for the nine months ended September 30, 2025 and 2024, the statements of changes in equity and cash flows for the nine months ended September 30, 2025 and 2024, and the notes to the financial statements, including material accounting policy information (collectively referred to as the "financial statements"). The management is responsible for the preparing and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Accounting Standards No. 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission. Our responsibility is to express a conclusion on the financial statements based on the result of reviews.

Scope of Review

We conducted our reviews in accordance with the Standards on Review Engagements of the Republic of China 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that caused us to believe that the accompanying financial statements do not present fairly, in all material respects, the financial position of the Corporation as of September 30, 2025 and 2024, and of its financial performance for the three months ended September 30, 2025 and 2024 and its cash flows for the nine months ended September 30, 2025 and 2024 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Emphasis of Matter

As stated in Note 32 of the financial statements, Chipbond Technology Corp. filed a criminal incidental civil lawsuit against the Corporation for the breach of trade secrets and requested compensation for damages amounting to NT\$1,000,000 thousand, as well as a civil lawsuit for the infringement of trade secrets, seeking indemnification of NT\$1,765,137 thousand. Additional claims for damages were subsequently filed starting in August 2021. The lawyer entrusted by the Corporation assessed that the litigation case had no significant

adverse impact on the Corporation. Therefore, the management of the Corporation assessed that the lawsuit would not have a significant impact on the Corporation's business and financial position. As of November 6, 2025, the aforementioned case has not been adjudicated by the court. The litigation case is a significant matter during the financial reporting period and involves the use of management's material estimates and expert reports.

Our review conclusion is not modified in respect of this matter.

The engagement partners on the reviews resulting in this independent auditor's review report are Chao-Chun Wang and Xiu-wen Chen.

JMC ELECTRONICS CO., LTD.

NOTES TO FINANCIAL STATEMENTS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2025 AND 2024 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL INFORMATION

JMC Electronics Co., Ltd. (the “Corporation”) was incorporated in 1973, and is primarily engaged in the business of manufacturing, processing, and trading of Chip on Film (Tape-COF).

As of September 30, 2025, Chang Wah Electromaterials Inc., the main shareholder of the Corporation, owned 42.8% of the Corporation’s issued ordinary shares. In January 2017, the Corporation listed its shares on the Taiwan Stock Exchange.

The financial statements are presented in the Corporation’s functional currency, the New Taiwan dollar.

2. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Corporation’s board of directors and authorized for issue on November 6, 2025.

3. APPLICATION OF NEW AND AMENDED STANDARDS AND INTERPRETATIONS

- a. Initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the “IFRS Accounting Standards”) endorsed and issued into effect by the Financial Supervisory Commission (FSC)

The initial application of the IFRS Accounting Standards endorsed and issued into effect by the FSC did not have material impact on the Corporation’s accounting policies.

- b. The IFRS Accounting Standards endorsed by the FSC for application starting from 2026

New, Amended and Revised Standards and Interpretations	Effective Date Announced by IASB
Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments”	January 1, 2026
Amendments to IFRS 9 and IFRS 7 “Contracts Referencing Nature-dependent Electricity”	January 1, 2026
Annual Improvements to IFRS Accounting Standards - Volume 11	January 1, 2026
IFRS 17 “Insurance Contracts” (including the 2020 and 2021 amendments to IFRS 17)	January 1, 2023

As of the date the financial statements were authorized for issue, the Corporation is still in the process of evaluating the impact of the amendments to standards and interpretations on the financial position and financial performance and will disclose the relevant impact when the assessment is completed.

- c. The IFRS Accounting Standards in issue but not yet endorsed and issued into effect by the FSC

New, Amended and Revised Standards and Interpretations	Effective Date Announced by IASB (Note1)
Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture s”	To be determined by IASB
IFRS 18 “Presentation and Disclosure in Financial Statements”	January 1, 2027 (Note2)
IFRS 19 “Subsidiaries without Public Accountability: Disclosures” (including the 2025 amendments to IFRS 19)	January 1, 2027

Note 1: Unless stated otherwise, the above IFRS Accounting Standards are effective for annual reporting periods beginning on or after their respective effective dates.

Note 2: On September 25, 2025, the FSC announced that IFRS 18 will take effect starting from January 1, 2028. Domestic entities could elect to apply IFRS 18 for an earlier period after the endorsement of IFRS 18 by the FSC.

IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 will supersede IAS 1” Presentation of Financial Statements”. The main changes comprise:

- Items of income and expenses included in the statement of profit or loss shall be classified into the operating, investing, financing, income taxes and discontinued operations categories.
- The statement of profit or loss shall present totals and subtotals for operating profit or loss, profit or loss before financing and income taxes and profit or loss.
- Provides guidance to enhance the requirements of aggregation and disaggregation: The Corporation shall identify the assets, liabilities, equity, income, expenses and cash flows that arise from individual transactions or other events and shall classify and aggregate them into groups based on shared characteristics, so as to result in the presentation in the primary financial statements of line items that have at least one similar characteristic. The Corporation shall disaggregate items with dissimilar characteristics in the primary financial statements and in the notes. The Corporation labels items as “other” only if it cannot find a more informative label.
- Disclosures on Management-defined Performance Measures (MPMs): When in public communications outside financial statements and communicating to users of financial statements management’s view of an aspect of the financial performance of the Corporation as a whole, the Corporation shall disclose related information about its MPMs in a single note to the financial statements, including the description of such measures, calculations, reconciliations to the subtotal or total specified by IFRS Accounting Standards and the income tax and non-controlling interests effects of related reconciliation items.

Except for the above impact, as of the date the financial statements were authorized for issue, the Corporation is continuously assessing the other impacts of the above amended standards and interpretations on the Corporation’s financial position and financial performance and will disclose the relevant impact when the assessment is completed.

4. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION

a. Statement of compliance

The financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 “Interim Financial Reporting” as endorsed and issued into effect by the FSC. The financial statements do not present full disclosures required for a complete set of IFRS Accounting Standards annual financial statements.

b. Basis of preparation

The financial statements have been prepared on the historical cost basis, except for financial instruments, which are measured at fair value, and net defined benefit liabilities (assets), which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for an asset or liability.

c. Other significant accounting policies

Except for the following, the accounting policies in the financial statements are consistent with those used in the financial statements for the year ended December 31, 2024.

1) Retirement benefits

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

2) Income tax expense

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated on an interim period’s pre-tax income by applying to the tax rate that would be applicable to expected total annual earnings.

5. MATERIAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

For details of material accounting judgments and key estimation uncertainties, refer to Note 32(c). Except as disclosed, they remain consistent with those in the financial statements for the year ended December 31, 2024.

6. CASH AND CASH EQUIVALENTS

	September 30, 2025	December 31, 2024	September 30, 2024

Domestic investments			
Listed shares	<u>\$1,068,832</u>	<u>\$1,082,455</u>	<u>\$1,386,184</u>

These investments in domestic investments are not held for trading; instead, they are held for medium- to long-term strategic purposes. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Corporation's strategy of holding these investments for long-term purposes.

9. ACCOUNTS RECEIVABLE

a. Accounts receivable

For the credit risk arising from the significant concentration of the accounts receivable balance on major customers as of September 30, 2025, December 31, 2024 and September 30, 2024, refer to Note 29.

The average credit period for sales of goods is up to 90 days; for the credit policies on the related accounts receivable, refer to Note 29.

1) Accounts receivable at amortized cost

The loss allowance for the Corporation's accounts receivable is recognized by using lifetime expected credit losses. The lifetime expected credit losses on accounts receivable were estimated by using a provision matrix by reference to past default experience of the customer, the customer's current financial position, economic condition of the industry in which the customer operates and industry outlook.

The Corporation's historical credit loss experience does not show significantly different loss patterns for different customer segments; hence, there is no further distinction between different customer segments.

The Corporation writes off an account receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery after completing the follow-up procedures. For accounts receivable that have been written off, the Corporation continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

2) Accounts receivable at FVTOCI

For accounts receivable owned by major customers, the Corporation will decide whether to sell these accounts receivable to banks without recourse based on its level of working capital and the trend of currency exchange rate. These accounts receivable are classified as at FVTOCI because they are held within a business model whose objective is achieved by both the collection of contractual cash flows and the sale of financial assets. In addition, the assessment method of allowance for loss is the same method for accounts receivable at amortized cost.

The Corporation's loss allowance of accounts receivable based on the allowance matrix is shown in the following table:

September 30, 2025

	Not Past Due
Expected credit loss rate	-
Gross carrying amount	\$ 275,759
Loss allowance (Lifetime ECL)	<u>-</u>
	<u>\$ 275,759</u>

	<u>\$ 293,332</u>

September 30, 2024

	Not Past Due
Expected credit loss rate	-
Gross carrying amount	\$ 271,302
Loss allowance (Lifetime ECL)	<u>-</u>
	<u>\$ 271,302</u>

The Company's accounts receivable are collected according to the credit terms specified in customer contracts. As of September 30, 2025, December 31, 2024, and September 30, 2024, no loss allowance was recognized.

- b. Factored accounts receivable for the nine months ended September 30, 2025 and 2024 were as follows:

Counterparty	Receivables Sold	Amount Collected	Advances Received - Used	Annual Interest Rates on Advances Received (%)	Credit

Chang Hwa Commercial Bank, Ltd.	-	-	-	-	USD 5,000 thousand
	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>		

The above credit line is revolving and can be utilized within the validity period.

The Corporation provided commercial papers for the factored accounts receivable to the banks mentioned above as the collateral for commercial disputes. The amount from the factored receivables is collected after deducting the related fees, and the Corporation does not bear the risk of uncollectibility of the accounts receivable.

c. Material lease activities and terms

The Corporation leased land and buildings from the government and related parties for use as workshops and offices, with lease periods of 10 years. For information on related party transactions, refer to Note 30. The Corporation does not have a purchase option to acquire the leased land and buildings at the expiration of the lease period. In addition, the lease agreement prohibited the Corporation from transferring the lease to other parties. The government has the option to adjust the lease payments based on changes in the announced land value.

Under the loan agreements, the Corporation should meet certain and quarterly percentages and amounts for the current ratio, debt ratio, interest coverage ratio and total equity. If the Corporation is not in compliance with the aforementioned restrictions on the financial ratios and amounts, the bank could request the Corporation to improve within a time limit. If the restrictions on the financial ratios and amounts are met within the improvement period, it would not be considered a default of contract. The Corporation did not violate the loan agreements based on the the audited annual financial statements for the year ended December 31, 2024. The Corporation was not in compliance with the loan restrictions based on the financial statements for the nine months ended September 30, 2025 and 2024, and the Corporation has developed an improvement plan.

In September 2019, the Corporation obtained the Ministry of Economic Affairs' approval letter for the qualification of enterprises in Taiwan based on the project "Action Plan for Accelerated Investment by Domestic Corporation." The funds obtained were used for the construction of plants, acquisition of machinery and equipment, and working capital.

	<u>\$ 495,985</u>	<u>\$ 492,994</u>	<u>\$ -</u>

On October 25, 2021, the Corporation issued its first domestic secured convertible bonds in the amount of NT\$500,000 thousand with a zero-coupon rate and a duration of 5 years. Taishin International Bank is the guarantor of the secured convertible bonds.

Each holder of the bonds has the right to convert the bonds into ordinary shares of the Corporation at the conversion price of NT\$63.5 per share. In the event of any circumstances stipulated in the measures for issuance and conversion of bonds, the convertible price shall be adjusted according to the conversion price adjustment formula. As of September 30, 2025, the conversion price was NT\$58.8 per share. Conversion may occur at any time between January 26, 2022 and October 25, 2026. If the bonds are not converted, they will be redeemed on October 25, 2026 in cash.

From January 26, 2022 to September 15, 2026, if the closing price of the Corporation's common stock in the centralized trading market exceeds the current conversion price by 30% or more for 30 consecutive business days, or when the outstanding balance of the bonds is less than 10% of the total amount upon the original issuance, the Corporation may redeem them in cash at the par value of the bond within five business days after the base date of recalling the bonds.

The base date for selling back the bonds in advance is October 25, 2024. The bondholders may exercise the right of selling back the bonds at par value within 40 days of the repurchase date. As of the bond repurchase date, no bondholders have submitted repurchase requests to the company. Therefore, the convertible bonds are reclassified as non-current liabilities based on the bond issuance period.

The convertible bonds contain both liability and equity components. The equity component was presented in equity under the heading of capital surplus - share options. The liability component contains derivative financial instruments and non-derivative financial instruments. The related amounts were as follows:

Others	<u>305</u>	<u>972</u>	<u>1,503</u>
	<u>\$ 2,413</u>	<u>\$ 4,859</u>	<u>\$ 19,361</u>

The estimation of sales returns and discounts (refund liabilities) was based on historical experience, management's judgments and other known reasons, and recognized as a reduction of operating revenues.

21. RETIREMENT BENEFIT PLANS

Employee benefit expenses related to the defined benefit retirement plans of the Corporation, for the three months ended September 30, 2025 and 2024 and for the nine months ended September 30, 2025 and 2024 were calculated using the actuarially determined pension cost discount rates as of December 31, 2024 and 2023, respectively.

22. EQUITY

a. Ordinary shares

	September 30, 2025	December 31, 2024	September 30, 2024
Number of shares authorized (in thousands)	<u>111,000</u>	<u>111,000</u>	<u>111,000</u>
Shares authorized	<u>\$ 1,110,000</u>	<u>\$ 1,110,000</u>	<u>\$ 1,110,000</u>

<u>May not be used for any purpose</u>			
Equity component of convertible bonds payable	<u>48,342</u>	<u>48,342</u>	<u>48,342</u>
	<u>\$ 625,489</u>	<u>\$ 625,489</u>	<u>\$ 625,489</u>

Note: Such capital surplus may be used to offset a deficit; in addition, when the Corporation has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Corporation's capital surplus and once a year)

c. Retained earnings and dividend policy

Pursuant to the Corporation's Articles of Incorporation, the current year's earnings, if any, shall be first used to pay taxes and offset deficit in prior years. The remaining earnings would be appropriated in the following order:

- 1) Setting aside 10% of the remaining earnings, as legal reserve, until the accumulated legal reserve equals the Corporation's paid-in capital.
- 2) Setting aside or reversing a special reserve in accordance with the laws and regulations.
- 3) Any remaining earnings together with any undistributed retained earnings shall be used by the Corporation's board of directors as the basis for proposing a distribution plan, and resolved in the shareholders' meeting.

In line with the overall environment and the growth characteristics of the industry, as well as the Corporation's long-term financial planning in order to achieve sustainable operations and stable business development, the Corporation's dividend policy is based on the residual dividend policy, which is based on the Corporation's future capital budget plan in the measurement of the annual capital requirements, and the remaining earnings are distributed in the form of cash and stock dividends after reserving the necessary capital for financing. The distribution steps are as follows:

- 1) Determine the best capital budget.
- 2) Determine the amount of financing needed to meet the previous capital budget.
- 3) Determine the amount of capital to be financed by retained earnings.
- 4) The remaining earnings may be distributed to the shareholders in the form of dividends, after reserving an appropriate amount for operating needs, and the distribution should be no less than 10% of the Corporation's distributable earnings for the year, provided that the portion of cash dividends is no less than 10% of the total dividends to be paid.

The legal reserve may be used to offset deficits. If the Corporation has no deficit and the legal reserve has exceeded 25% of the Corporation's paid-in capital, the excess may be transferred to capital or distributed in cash.

The appropriations of earnings for 2024 and 2023 were approved in the shareholders' meeting in May 2025 and 2024, respectively. The appropriations and dividends per share were as follows:

	Appropriations of earnings		Dividends per share (NT\$)	
	2024	2023	2024	2023
Legal reserve	\$ 4,400	\$ 1,136		
Cash dividends	16,600	10,222	<u>\$ 0.2</u>	<u>\$ 0.12</u>

The Corporation's board of directors in May 2024 had proposed to distribute cash dividends of NT\$14,678 thousand from the capital surplus derived from the premium of capital share issuance at NT\$0.18 per share.

f. Employees' compensation and remuneration to directors

Pursuant to the Corporation's Articles of Incorporation, 2% to 16% of the current year's profit shall be distributed as the employee's compensation. The compensation of the employees shall be distributed in shares or cash by the resolution of the board of directors and may include the Corporation's employees that meet requirements. In addition, not more than 1% shall be distributed as the remuneration of directors. The distribution of compensation and remuneration shall be reported in the shareholders' meeting. However, if the Corporation still has accumulated losses, the Corporation shall set aside a specific amount of retained earnings to cover the loss and then accrue the compensation and remuneration as mentioned above. According to the amendment of the Securities and Exchange Act in August 2024, the Corporation plans to amend its Articles of Incorporation at the 2025 shareholders' meeting to stipulate that 2% to 16% of the employee remuneration shall be allocated specifically to non-executive employees.

As the Corporation incurred a pre-tax loss for the three months ended September 30, 2025 and for the nine months ended September 30, 2025, no remuneration expenses for employees (including non-executive employees) and directors were recognized for that period. The Corporation distributed the compensation of employees and remuneration of directors for the nine months ended September 30, 2024 at the rates of 2% and 1%, respectively, of income exceeding a specified amount of pre-tax profit; were as follows:

	For the Three Months Ended September 30		For the Nine Months Ended September 30	
	2025	2024	2025	2024
Compensation of employees	\$ -	\$ (1,403)	\$ -	\$ 695
Remuneration of directors	-	(702)	-	347

The difference between the amounts recognized and the amounts approved by Corporation's board of directors is recorded as a change in accounting estimate and will be adjusted in the next year.

There was no difference between the amounts of employees' compensation and remuneration of directors as approved and the amounts estimated in the financial statements for the years ended December 31, 2024 and 2023, as approved by the Board of Directors in March 2025 and March 2024, respectively. The compensation and remuneration were distributed in cash.

	For the Year Ended December 31	
	2024	2023
Compensation of employees	\$ 351	\$ 37
Remuneration of directors	175	18

Information on compensation of employees and remuneration of directors resolved by the Corporation's board of directors are available on the Market Observation Post System website of the Taiwan Stock Exchange.

25. INCOME TAX

a. Income tax recognized in profit or loss

The major components of income tax expense (benefit) were as follow:

	For the Three Months Ended September 30		For the Nine Months Ended September 30	
	2025	2024	2025	2024
Current tax				
In respect of the current year	\$ -	\$ (5,669)	\$ -	\$ -

Adjustments for prior years	<u>-</u>	<u>-</u>	<u>(4,096)</u>	<u>-</u>
	<u>\$ (28,085)</u>	<u>\$ (8,559)</u>	<u>\$ (73,753)</u>	<u>\$ 4,014</u>

b. Income tax assessment

The Corporation's income tax returns through 2023 have been assessed by the tax authorities.

26. EARNINGS (LOSS) PER SHARE

The net profit (loss) and weighted average number of ordinary shares outstanding in the computation of earnings (loss) per share were as follows:

Net profit (loss) for the period

	For the Three Months Ended September 30		For the Nine Months Ended September 30	
	2025	2024	2025	2024
Net profit (loss) used in computation of basic earnings (loss) per share	(\$111,399)	(\$59,479)	(\$290,871)	\$ 29,691
Effect of potentially dilutive ordinary shares Convertible bonds	<u>-</u>	<u>-</u>	<u>-</u>	<u>(4,226)</u>
Net profit (loss) used in computation of diluted earnings (loss) per share	<u>(\$111,399)</u>	<u>(\$59,479)</u>	<u>(\$290,871)</u>	<u>\$ 25,465</u>

Weighted average number of ordinary shares outstanding (in thousands of shares):

	For the Three Months Ended September 30		For the Nine Months Ended September 30	
	2025	2024	2025	2024
Weighted average number of ordinary shares used in computation of basic earnings (loss) per share	83,000	83,000	83,000	83,000
Effect of potentially dilutive ordinary shares				
Compensation of employees	-	-	-	15
Convertible bonds	<u>-</u>	<u>-</u>	<u>-</u>	<u>8,446</u>
Weighted average number of ordinary shares used in computation of diluted earnings (loss) per share	<u>83,000</u>	<u>83,000</u>	<u>83,000</u>	<u>91,461</u>

The Corporation may settle the compensation of employees in cash or shares; therefore, the Corporation assumes that the entire amount of the compensation will be settled in shares, and the resulting potential shares will be included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, as the effect is dilutive. Such dilutive effect of the potential shares is included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year. As the Corporation incurred a net loss for the three months ended September 30, 2025 and the nine months ended September 30, 2025, the potential shares from employee compensation and outstanding convertible bonds were anti-dilutive and therefore excluded from the computation of diluted loss per share.

27. NON-CASH TRANSACTIONS

For the nine months ended September 30, 2025 and 2024, the Corporation entered into the following non-cash investing activities that were not reflected in the statements of cash flows:

	For the Nine Months Ended September 30	
	2025	2024
Increase in property, plant and equipment	\$ 132,876	\$ 45,692
Increase (decrease) in prepayments for equipment	(31,575)	623
Decrease (increase) in payables for equipment	<u>(2,517)</u>	<u>2,149</u>
Cash paid	<u>\$ 98,784</u>	<u>\$ 48,464</u>

28. CAPITAL MANAGEMENT

The Corporation manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The key management personnel of the Corporation review the capital structure periodically, based on the condition of industry operations and future development of the Corporation, and consider the changes in the external environment. As part of the review, the key management personnel consider the cost of capital and the risks associated with each class of capital. In order to balance the overall capital structure, the Corporation adjusts the number of new shares issued and the amount of new debt issued or existing debt redeemed.

29. FINANCIAL INSTRUMENTS

- a. Fair value of financial instruments that are not measured at fair value

The management believes the carrying amounts of financial assets and financial liabilities recognized in the financial statements approximate their fair values.

- b. Fair value of financial instruments that are measured at fair value on a recurring basis

1) Fair value hierarchy

	<u>\$ 1,391,304</u>	<u>\$ -</u>	<u>\$ 170,296</u>	<u>\$ 1,561,600</u>

There was no transfer between Level 1 and Level 2 for the nine months ended September 30, 2025 and 2024, and no transfers into or out of Level 3.

2) Reconciliation of Level 3 fair value measurements of financial instruments

Reconciliation of the fair value measurements of the financial instruments at FVTPL was as follows:

	For the Nine Months Ended September 30	
	2025	2024
Balance at beginning of the period	\$ 50	\$ (6,800)
Recognized in profit or loss (recorded as other gains and losses)	<u>(50)</u>	<u>7,050</u>
Balance at end of the period	<u>\$ -</u>	<u>\$ 250</u>

3) Valuation techniques and inputs applied for fair value measurement

The Corporation uses the market price quotations as fair value inputs (level 1). The market price of the listed shares is the closing price of the shares on the Taiwan Stock Exchange.

The Corporation considers that the impact of discounting accounts receivable classified as at FVTOCI is immaterial; hence, the fair value is measured according to the book value (level 3).

The fair value of derivative assets - convertible bonds redemption rights and sell-back rights is measured using the binominal tree model (level 3) by using the significant but unobservable input - fluctuation of stock price. When the fluctuation of stock price increases, the fair value is deemed to increase.

Note 2: The balances included financial liabilities at amortized cost, which comprise long-term and short-term borrowings, accounts payable, other payables, (excluding dividends payable), bonds payable, and guarantee deposits.

d. Financial risk management objectives and policies

The Corporation's major financial instruments include equity investments, accounts receivable, accounts payable, other payables, bonds payable, borrowings and lease liabilities. The Corporation's

treasury function provides services to the business, coordinates access to domestic and international financial markets, and monitors and manages the financial risks relating to the operations of the Corporation through internal risk reports that analyze exposures by degree and magnitude of risks. These risks include market risk (including foreign currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The significant financial activities of the Corporation are reviewed by the board of directors in accordance with relevant regulations and internal controls. Compliance with policies and exposure limits is continually reviewed by the internal auditors. The Corporation did not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

1) Market risk

The Corporation's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates (see (a) below), interest rates (see (b) below) and other prices (see (c) below).

There had been no change to the Corporation's exposure to market risks or the manner in which these risks were managed and measured.

a) Foreign currency risk

The Corporation was exposed to foreign currency risk due to sales and purchases denominated in foreign currencies. Exchange rate exposures were managed by foreign exchange forward contracts, natural hedges of foreign deposits, foreign borrowings or the same category of foreign currency right and debts from transaction.

For the carrying amounts of the Corporation's non-functional currency denominated monetary assets and liabilities at the balance sheet date, refer to Note 33.

Sensitivity analysis

The Corporation was mainly exposed to the USD and JPY. The following table details the Corporation's sensitivity to a 1% increase and decrease in the New Taiwan dollar against the USD and JPY. The sensitivity rate used when reporting foreign currency risk internally to key management personnel and representing management's assessment of the reasonably possible change in foreign exchange rates is 1%. Negative amounts in the table indicate a decrease in pre-tax profit when the New Taiwan dollar appreciates by 1% against the USD and JPY, while a depreciation of 1% would result in an equal but opposite effect on pre-tax profit.

The sensitivity analysis included only outstanding foreign currency denominated monetary items as follows:

	Sensitivity Analysis	
	Impact on Profit or Loss	
	For the Nine Months Ended September 30, 2025	For the Nine Months Ended September 30, 2024
Denominated monetary items (Note)		
USD: NTD	(\$4,193)	(\$4,260)
JPY: NTD	(365)	(539)

Note: This was mainly attributable to the exposure on outstanding cash and cash equivalents, accounts receivable (including related parties), accounts payable, other payables, and refund liabilities (reported as other current liabilities) in USD and JPY which were not hedged at the balance sheet date.

In management's opinion, sensitivity analysis was unrepresentative of the inherent foreign exchange risk because the exposure at the balance sheet date did not reflect the exposure during the period. Sales in U.S. dollar will fluctuate according to the terms of contracts and business cycle.

b) Interest rate risk

The Corporation was exposed to interest rate risk because the Corporation borrowed funds at both fixed and floating interest rates. The risk is managed by the Corporation by maintaining an appropriate mix of fixed and floating rate borrowings.

The carrying amounts of the Corporation's financial assets and liabilities with exposure to interest rates at the balance sheet date were as follows:

	September 30, 2025	December 31, 2024	September 30, 2024
Fair value interest rate risk			
Financial assets	\$ 32,840	\$ 102,395	\$ 235,085
Financial liabilities	528,105	539,590	543,363
Cash flow interest rate risk			
Financial assets	282,829	455,018	422,427
Financial liabilities	425,683	526,446	598,271

The sensitivity analysis below was determined based on the Corporation's exposure to financial instruments at the balance sheet date. For floating rate liabilities, the analysis was prepared assuming the amount of the liabilities outstanding at the balance sheet date were outstanding for the whole year. A 1% basis point increase or decrease was used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates of financial liabilities had been higher/lower by 1% and all other variables were held constant, the Corporation's pre-tax loss for the nine months ended September 30, 2025 would have been higher/lower by NT\$3,193 thousand and pre-tax profit for the nine months ended September 30, 2024 would have been lower/higher by NT\$4,487 thousand.

c) Other price risk

The Corporation was exposed to equity price risk through its investments in domestic listed shares.

If equity prices had been 1% higher/lower, the pre-tax other comprehensive income for the nine months ended September 30, 2025 and 2024 would have increased/decreased by NT\$10,706 thousand and NT\$13,913 thousand, respectively, as a result of the changes in fair value of financial assets at FVTOCI.

2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Corporation. As of the balance sheet date, the Corporation's maximum exposure to credit risk is the carrying amount of the financial assets on the balance sheets.

Business units grant credit amounts according to their experience in various credit transactions, and monitor customer payment situations regularly. The Corporation does not expect significant credit

risk because the counterparties are creditworthy financial institutions. In recent years, the actual occurrence of bad debts is very rare, and therefore no significant credit risk is expected.

Counterparties of accounts receivable are concentrated in a number of significant customers. They are mostly engaged in commercial activities and have similar economic characteristics and similar abilities to fulfill contracts affected by the economic or other conditions. The receivables with significant credit risk were as follows:

Customer	September 30, 2025	December 31, 2024	September 30, 2024
Company A	\$ 97,033	\$ 99,870	\$ 95,013
Company B	58,351	68,496	60,527
Company C	54,799	41,546	54,160
Company D	31,863	-	-
Company E	10,233	24,592	27,261
Company F	<u>8,518</u>	<u>36,549</u>	<u>21,123</u>
	<u>\$ 260,797</u>	<u>\$ 271,053</u>	<u>\$ 258,084</u>

3) Liquidity risk

The management of the Corporation continuously monitor the movements of cash flows, net cash and cash equivalents position and the utilization of bank loan commitments to control the proportion of long-term and short-term bank loans and ensure compliance with loan covenants.

The Corporation relies on bank borrowings as a significant source of liquidity. As of September 30, 2025, December 31, 2024, and September 30, 2024, the Corporation's unused credit facilities were NT\$2,281,341 thousand, NT\$2,697,898 thousand, and NT\$2,628,359 thousand, respectively.

The following table details the Corporation's remaining contractual maturities for its non-derivative financial liabilities with agreed upon repayment periods. The table has been drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Corporation can be required to pay. The table includes both interest and principal cash flows.

To the extent that interest flows are at floating rate, the undiscounted amount was estimated by the interest rate at the end of the reporting period.

32. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

- The amount of the customs duties guarantee provided by the Corporation through bank credit guarantee is NT\$18,000 thousand, and NT\$3,742 thousand has been used
- The Corporation signed the contract for the purchase of property, plant and equipment with a total amount NT\$99,354 thousand, of which NT\$13,270 thousand had not been paid.
- In March 2014, Chipbond Technology Corp. filed a criminal lawsuit against the Corporation for the breach of trade secrets. Subsequently, in September 2019, a criminal incidental civil lawsuit was filed

for the requested compensation of damages amounting to NT\$1,000,000 thousand. Additional claims for damages have been made since August 2021, and the case is currently pending in court. In September 2016, Chipbond Technology Corp. also filed a civil lawsuit against the Corporation for infringement of business secrets. The main contents of the lawsuit include the prohibition on the use or disclosure of business secrets of Chipbond Technology Corp., the destruction of relevant files, the prohibition on the people involved in the case from serving the Corporation for a specific period of time and the destruction of products that infringed on business secrets. Chipbond Technology Corp. sought an indemnification of NT\$1,765,137 thousand and subsequently filed additional claims for damages. The court dismissed Chipbond Technology Corp.'s claims on December 29, 2023, but Chipbond Technology Corp. had filed an appeal. Based on the legal opinion issued by the Corporation's lawyers for the aforementioned litigation case, no significant adverse impact on the Corporation was concluded after the assessment of the lawyers. Therefore, the management of the Corporation believes that the lawsuit will not have a significant impact on the Corporation's business and financial position. The aforementioned case has not been adjudged by the court as of November 6, 2025.
